A heifer that definitely catches your eye. She is as powerful as her grandsires. We took Alberda Traveler and crossed it with Donmac cow and got a bull as close to Donmac him self. 507R is a bull we have used a lot of until this year. We liked him but needed to get back to our roots of straight Canadian. A heifer we are proud to offer as the fundraiser heifer. She will certainly fit in your herd.

Fundraiser Heifer Auction Procedure

1. The final bid in each round will denote the amount of that bidder's donation.
e.g. Round 1 - Final Bid is \$300.00 to Randy Mitchell. Randy's donation is \$300.00. Round 2 - Final bid is \$250.00 to Tom Jones. Tom's donation is \$250.00.
Round 3 - The female is re-auctioned on a downward scale until no further bids are received at the low of \$10.00.
2. Each \$10 purchased (donated) represents once chance in the final draw.
e.g. Randy Mitchell has 30 chances. Tom Jones has 25 chances and so on down the scale to the final \$10 donation worth one chance each.
3. One ticket for every \$10 donated, bearing the contributor's name will be put into a draw barrel.
4. At the end of the sale, one ticket will be drawn, with the person winning the heifer.

Welcome to the 31st Annual Northern Select Angus Sale

Again the fall has come and the folks from Northern Alberta have brought their best to town for you to evaluate at the 31st Annual Northern Select Sale. This event has been running so long because of the consignors involved and the cattle they market through this sale. The cattle simply work for their new owners and this sale will always have that fact.

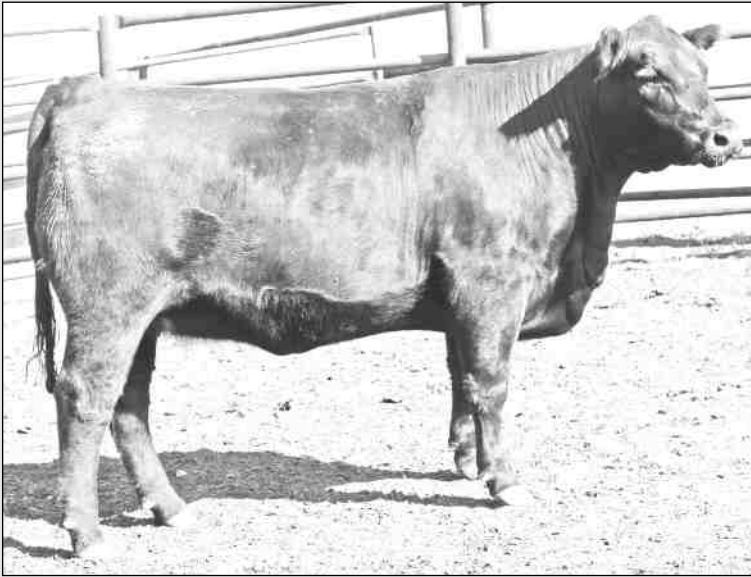

This year we welcome alot of familiar faces and also alot of new ones. This is great to see, new consignors appearing at the sale. Some of these new consignors have been here before purchasing animals from this sale and now trying to market their program through the Northern Select.

This year we have selected all sorts of animals from the consignors; bred cows, cow calf pairs, bred heifers and heifer calves including 3 outstanding bull calves that will make you come sale day. We also would like to remind the 10% Junior Incentive program that the Northern Select Sale is doing again this year. We seem to market about 10 head per year to these great juniors.

As usual OBI has been to all of the farms and have seen all of the cattle and know these animals very well. Please do not hesitate to call us so we can assist you in your needs for this year's edition of the Northern Select Sale.

See you sale day!
Rob Holowaychuk, OBI

SERVICE: A.I. ON APRIL 13 TO SAV WALL STREET. EXPOSED FROM APRIL 30 TO JULY 30 TO B HILLS FRL FINAL 722. DUE EARLY FEB 2009.

Allandale McHenry 7U is one of the top bred heifers this year at Allandale Angus. She is out of our Senior Herdsire, Crescent Creek Image Maker 55P, who has done everything you would want as a cornerstone to your program. He sires very consistent, well footed, easy doing progeny and when you add in the Main Event 6H bull from Minburn, you are sure this female will be working for you for a very long time. She is bred to our new herdsire, Beverly Hills FRL Final 772, A Buffalos Conclusive son out of the famous HA Beletta 0219. This is a female with a great pedigree and the coupon will have outstanding marketability.

Again, another Image Maker 55P daughter that was very easy to find the day OBI selected these animals. She is one of our bests again in the open heifer division. The same day we purchased Image Maker 55P with Everblack Angus, I also purchased Crescent Creek Queen Ruth 59P, and when you can obtain a Queen Ruth for a reasonable amount of money, take advantage of it as they will not disappoint you as you can see in 1W here today.

Thank You to all the Northern Select Consignors over the past 31 Years...

Your involvement in the Angus breed is greatly appreciated. A lot of friends have been made here at the Northern Select Sale and we will continue to do so for another 31 years.

Avelyn Angus

SERVICE: A.I. ON APRIL 25 TO RED TER-RON FULL BLAST 120T. EXPOSED FROM MAY 1 TO JUNE 30 TO AVELYN TERMINATOR 155U.

Here we have the first bred heifer we have ever sold and she is no slouch. She is a moderate kind of female, with the makings of a great young cow. Her mother is a sweet uddered momma, who did a remarkable job on this heifer as a two year old. Bob really liked her and persuaded us to put her in the sale. Along with her half sister from this year you could take them home and have a superb addition with two of the same family.

She was A.I.'ed to the high seller at TER-RON's 2008 sale Red Ter-Ron Full Blast 120 T.

This is a great young heifer from our Hi Line cow that we purchased here at the Northern Sale from Brownalta Farms as a bred heifer a few years back. This a dark red shapely heifer that you need to appreciate for her thickness over the top and her muscle expression. She's got style up front and a really sweet head. She's got that awesome red hair that just pops on its own as well. With the Showy cow on the sire side of the pedigree she has amazing potential to make a great female like her Grandam. Juniors make sure you give her a second look.

SERVICE: A.I. ON APRIL 25 2009 TO WHITESTONE WIDESPREAD. EXPOSED MAY 1 TO JUNE 30 TO AVELYN TERMINATOR 155U.

This is another heifer Bob really liked out of our group of breds. This is as well the first black bred yearling we have ever offered up for sale. This heifer is out of Beth's show cow who won Grand Champion at the 2008 Leduc District 4-H District Heifer Show. This will be another great momma in the making. She has great feet and legs with lots of dimension and volume through the middle and hind end. She has always been the best haired heifer the kids ever worked with. Her dam goes back to Vermillion Dateline 7078 who was one of the most powerful bulls the industry had seen in his day. He was known to be a great female maker with performance numbers to add to the package. With Prophecy as her sire, putting out some awesome females for us at home she is bound to make a great cow in someone's herd. The dam is great cow in our herd whom we hope to have many more daughters from in her future.

This is another great Prophecy daughter from one of the hardest working cows in our program. This heifer carries that thickness we look for in strong functional mothers. She has loads of hair and some of that style that makes her catch your eye when you see her in the field or at home in the corrals. Her dam is a moderate framed type with a beautiful udder and great teat length. With two daughters in the herd and all of them young cows we felt there was a good chance we will have more to keep in the future. Take a look, she as well may make a super show prospect for a young member or a great replacement in a herd that holds optimism for this industry like we do.

This is a truly outstanding heifer from the top of the pen. Bob wasn't gonna take no for an answer. We purchased this heifer's dam as well at the Northern a couple of years back. Ronan R Belle 10R is the dam. Her first two calves were bulls which are both working in commercial herds here in central Alberta and doing a fine job at that. I had a hard time with letting her first heifer calf go, but to build a name in this business you need to sell good all around cattle and this one is going to be a great one if she is anything like her mother. She is thick over the top she has beautiful round muscling and hair hair hair. Juniors and 4H members take note this calf will make an outstanding project in any show. Her dam is as square uddered as they come and like I already said did a great job on her first two calves. Her sire is our great herdsire Prophecy who stood third in his senior bull class at the WAF last July. As young breeders in this business we were honored to stand there with some great long time breeders we have come to call friends. Prophecy puts even more maternal power and calving ease into this formula. Truly this heifer has amazing potential in any program.

5W is a tremendous heifer that came in dam from the bred heifer we selected from the KBJ Production Sale last fall. If she is any indication of what to expect from her sire, SAV Final Answer, they are sure to be exceptional. This heifer has been a standout all summer. With her being out of a first time calver, natural traits are evident! A definite show heifer prospect!

Dennis has always wanted a Knight Hawk sire, especially one that has tremendous milk production, so in 2008 we purchased one. His first calf crop is on the ground and we are very pleased with the choice we have made. Since birth, this heifer calf has been outstanding. She has displayed many of our ideal features such as depth and femininity. Her dam has a great udder to go along with her features.

A very nicely made 604 daughter out of out top producing 52G cow. Robbie bought the 604 bull out of the U.S. For us, he has left us a nice set of replacement females. The dam 52G, is a daughter of Kruggerand 490, one of the really influential bulls of the breed and 52G has only enhanced that reputation. Her production includes 2 daughters in herd, a daughter thru the Hayshaker to Justamere and 6 sons thru our Bull Sale including the top seller in 2006 to U-2 Ranch Ltd. at Coaldale, AB. This heifer has the potential to be a producing machine.

SERVICE: EXPOSED FROM APRIL 8 TO JULY 30 TO RED WEBR JURY'S OUT 16S.

Bob Toner picked out this handy young female from our herd and it's easy to see why! 19S is moderately framed, sound, functional cow. She's exceptionally maternal, with a good foot and neat udder. Her dam is an Elite Cow with the Canadian Angus Association, and is still raising top bull calves for us at the age of 13! Her dam's sire Red Razor's Edge 8D was the 1994 Bull Calf Champion and Reserve Grand Champion at Agribition and the 1995 Canadian Show Bull of the Year. Her 2008 heifer calf was sold at last year's Northern Select Sale and is now working for Lexi Dietrich. 19S has done a great job raising this year's heifer calf, which is also entered in this year's sale. 19S has been bred back to our herd sire Red Webr Jury's Out 16S, a son of the 2006 National Western Stock Show and 2005 National Grand Champion Red Angus bull Red Webr Dr Phil.

305W is a sweet little heifer with an outstanding pedigree! Her sire, Red Webr Jury's Out 16S is our solid herd sire that we imported from Weber Farms in Minnesota. Jury's sire is the incredible Red Angus bull Red Webr Dr Phil—the 2006 National Western Stock Show Grand Champion Red Angus Bull and the 2005 National Champion Red Angus Bull. Her dam, Red Diamond H Erica 19S is a super productive female and also sells in this year's sale—be sure to check her out as well! 305W has a great disposition, and would make a great junior project!
